Professional Summary

Software Developer with a strong foundation in frontend and full-stack development. Experienced in building scalable and user-focused web applications using modern technologies. Skilled in collaborating with cross-functional teams and contributing to project goals through clear communication and practical problem-solving. Interested in working in a structured development environment where I can apply my technical skills, improve code quality, and contribute to building reliable software solutions.

Experience & Projects

UNITED AIRLINES BAGGAGE MANAGEMENT SYSTEM | @NEUNEXIS | MAY 2025 – PRESENT

- BSO application is used by United Airlines for their Backoffice Baggage Management System.
- This system helps airlines agents to onboard, track, manage, and deliver customer bags.
- Rectified **10+ critical bugs** related to user roles and existing functionalities within the BSO back-office system, streamlining bag tracking operations and decreasing system latency by **200ms**.
- **Updated Angular version** for Reclaim project from **Angular 14 to 19**.
- Tools & Technologies used - **Angular 20, Angular Material, Signals, Git & GitHub, Source Tree**

SERVICETITAN | @NEUNEXIS | NOV 2024 – MAY 2025

- ServiceTitan is a software service build for trades and businesses.
- The software helps in managing multiple tasks for commercial and residential services.
- **Updating Angular version** for the project from **Angular 16 to Angular 19**.
- Tools & Technologies used - **Angular 18, RxJS 7, Git & GitHub**.

STAVYA-APPOINTMENT | TO_BRAIN | @PCUBE SOFTECHS | JUNE 2024 – OCT 2024

- Actively took part in client meetings, understanding the requirements, providing a brief idea about the flow of the application and receiving feedback, discussing the progress, implementing the solutions agreed upon.
- Proactively working on developing & enhancing live project by integrating the apps with **User-Centric Design** and **Fluid Navigation** utilizing **React.js 18 & Bootstrap 5**, intensifying UI/UX by **60%**.
- Architected & developed dynamic, reusable components and functions with robust **role-based authorization and routing** across multiple projects.
- Implemented CRUD functionalities following the **DRY principle**, improving code quality by **70%**.

PROJECT MANAGEMENT APP | @E-MONK IT SOLUTIONS | JAN 2024 – MAY 2024

- Project Management App, a web application that can be used by project managers and team leaders and members to keep a track of various tasks / tickets related to any project reducing work stress by **80%** and increasing time efficiency by **50%**.
- Build with **React 18** and **Laravel 10**, the application provided a very friendly UI/UX with easy to understand and utilize.
- Technologies explored during the training - **React JS 18, PHP, Laravel 10, Tailwind CSS, Git** and **GitHub**.

PATIENT PORTAL APP | @TECHNOTERY | MAY 2023 – JULY 2023

- Patient Portal is an application wherein users can securely view their prescribed medicines, medical reports, and upcoming appointments in one centralized platform, improving accessibility and continuity of care.
- Designed & built multiple UI pages like Sign-In, Sign-Up pages, Landing page, User profile page.
- Tools & technologies used - **React JS 18, Bootstrap, Git and GitHub.**

Education

B. TECH IN COMPUTER SCIENCE ENGINEERING | IIIT VADODARA | 2020-2024 | 7.62 CGPA

HIGHER SECONDARY EDUCATION | ULTRA VISION ACADEMY | MARCH 2020 | 74.5%

SECONDARY EDUCATION | DAYAMAYI MATA SCHOOL | MARCH 2018 | 86.0%

Skills & Abilities

- Java
- JavaScript
- TypeScript
- Angular JS
- React JS
- Next JS
- Node JS
- Laravel 10
- Bootstrap 5
- Tailwind CSS
- HTML 5
- CSS 3
- Computer Programming & Problem Solving
- Data Structures and Algorithms
- Object Oriented Programming
- Database Management System
- Software Engineering (SDLCs)
- Operating Systems
- Computer Networks
- Introduction to Cybersecurity
- Git and GitHub
- AWS and Docker
- SQL
- Postman API

Achievements

- Scored **98.76** Percentile in **JEE Mains 2020**
- Cleared Round 1 in **CodeKaze 2023**

Certifications

- [SDLC Fundamentals](#)
- [Introduction to Integration Testing](#)
- [Postman API Fundamentals Student Expert](#)
- Java – [HackerRank](#), [Coding Ninjas](#)
- SQL - [HackerRank](#)

Languages

- English
- Gujarati
- Hindi
